FAQ section

H2:

Motherhood & Family FAQ

Q&A (each can be an expandable accordion):[code_file:81]

- **When should I schedule my maternity session?**

Most mothers in Stouffville and the GTA schedule maternity sessions between 28 and 34 weeks, when the bump is visible but you still feel comfortable. If you're unsure, we can advise based on your due date.

- **How old should my newborn be for the session?**

Newborn sessions typically happen within the first 5–21 days, but we happily photograph slightly older babies too. The most important thing is choosing a day when you and your baby feel ready.

- **What should we wear for family photos?**

Neutral, comfortable clothing works best with our minimal-modern sets. Avoid heavy logos and extremely bright patterns. After you book, we send a simple style guide with suggestions for parents, kids, and newborns.

- **Do you provide props for newborns and kids?**

Yes. The studio includes simple wraps, blankets, and a few soft props. You're welcome to bring personal items like a favorite toy or blanket to make the session feel more like home.

- **How far in advance should we book?**

For maternity and newborn sessions, we recommend booking at least 4–8 weeks in advance, especially during busy seasons. Last-minute dates may be available; reach out and we'll do our best to accommodate.

- **How do payments and bundles work?**

Single sessions require a 50% retainer to hold your date, with the balance due on or before the session. Journey bundles can be paid per session, in two installments, or in full upfront with additional savings.
